

Welcome to

coflexConnectSM
guided patient experience

We are here for you!

Your surgeon has determined that you
have lumbar spinal stenosis.

So what's next?

A **coflexConnect Care Coordinator** is here
to guide you every step of the way from diagnosis
to finding your best treatment!

Our **coflexConnect Team** will provide personalized support, such as:

- **Providing free and confidential one-on-one personalized support services** for patients suffering from lumbar spinal stenosis (LSS)
- **Answering any non-medical questions or concerns** you have about your LSS journey
- **Offering education, support, and informational resources** that may help you throughout your experience
- **Informing you about the benefits verification process** and how it affects you while providing strategies and support to navigate what can be a confusing process
- **Following up after your coflex surgery** and throughout your recovery
- **Connecting you with a coflex Patient Ambassador** who is willing to share their personal story about being a patient with a **coflex** device

We look forward to connecting with you!
